Data Visualisation: Python (plotly) - PowerBI - R (ggplot2)
 Data Manipulation: SQL - Python (polars, pandas, duckdb)

Machine Learning: Sklearn - Tidymodels

Data Apps Frameworks: Streamlit - Shiny

↑↑ Devops: Git - Github Actions - Docker

 $ho_{\hspace{-0.1em}\text{\tiny FP}}$ Reporting: Quarto - Rmarkdown - $m I\!\!^{A}T_{\hspace{-0.1em}\text{\tiny E}}X$

Cloud Data Platforms: Snowflake - AWS

Web Development: HTML - CSS

Graduated with a master's degree in Business Economics, I am seeking a position as a **Data Engineer** starting from September 2024. With several internships completed within Data/Analytics teams in the industry, I have accumulated close to a year of handson experience in the field. Feel free to check out my website (*cducloux.quarto.pub*)!

WORK EXPERIENCE

April 2024 → Sep. 2024

EDF: Data Engineer (Internship)

- **♀** Tours
- Migration of a dataviz app from R to Python, with a CI/CD pipeline and various added features.
- Development of a Shiny app generating automated reports and analyses on the impacts related to the loss of control cabinets for the Hinkley Point C EPR.
- Creation of data pipelines using duckdb + dbt, pydantic for data validation, and airflow for orchestration.

April 2023 → Aug. 2023

Safran Seats: Data Analyst & BI Developer (Internship)

O Issoudun

- Production ready Python solution ensuring cross-tool data quality and consistency.
- Tables, views and stored procedures migration from SQL Server to Snowflake as part of the *Legacy* decommission (Operational Data Store).
- Lead time analysis and manufacturing order tracking dashboard on PowerBI.
- Deployed 4+ functional and optimized dashboards on the company PowerBI Report Server.

June 2022 → Aug. 2022

Crédit Agricole Titres: Back Office Analyst

9 Mer

- Dashboard to manage banking mobility activity using PowerQuery & PowerBI.
